# FORWARD WATER IMPACT PROTECTION

We are charging!
The foiling market is charging! Watersports such as Windsurfing, Kite surfing, Sailing, and even Surfing, are going through the revolution of foiling, gliding over the sea in a very enjoyable and efficient way.
Like a Bull charging (our Logo origin is a bull..), we are charging full speed to develop the best water action sports equipment.
We are pro sailors, engineers, designers, supply specialists, ... and we are all dedicated to watersports, training and racing whenever possible to constantly test new ideas.
Here is our 2017 collection, an evolution of our first collection in 2015 and loaded with some key innovations.
Yes!... only 2 years, but we are charging!

The Forward WIP Team

Our Main focus has not shifted and we have kept our efforts developping the best gear, using our America's Cup experience, for water sports such as

***Extreme foiling boats, Action dinghy sailing, Windfoiling and Kite foiling***

and we have also branched out into other innovative solutions for professionals developped in our Forward WIP Lab...

# X-OVER [CROSSOVER] HELMET

Code ACCAWIPXOV

SNOWWATER

*Features*

- *This helmet has lower coverage shape with a quick mini dial size adjustment.*
- *In-mold construction, very light, complies with water sport CE1385 and ski spec CE1077B*
- *Thermoformed foam for better comfort, each helmet is delivered with a set of thicker foams for a better taylored fit on smaller heads.*
- *Adjustable size thanks to the fit-system - for great comfort*
- *Size fits all 55-59cm*
- *Many openings for good ventilation*

***The perfect crossover helmet for multiple sport activities***

*The Crossover helmet has been developed with an America's cup team to offer the best protection and to match Ski helmet specs. This will be the perfect choice for Multi-activity sport riders wanting to use it on their fast foiling cats and for high speed downhill skiing.*

## PROWIP SAILING HELMET

ONE SIZE: 54-60CM / Code ACCA100000

GREY / CYAN

BLACK / RED

WHITE / CARBON

*Features*

- *This helmet has a special shape with good ventilation and side ear cut for wind perception.*
- *In mold construction: thin and very light*
- *Thermoformed foam for better comfort, each helmet is delivered with a set of thicker foam for a better fit on smaller heads.*
- *Adjustable size thanks to the fit-system - for good comfort.*
- *Many openings for good ventilation.*
- *Weight: less than 300g.*
- *Size fit's all 54-60cm.*

*« The first sailing helmet designed for high performance sailing, light and elegant. »*

*Loick Peyron*

***The First real sailing helmet, light and stylish***

*Modern catamarans or other high performance boats, such as skiffs, are going faster and faster and incidents can cause significant trauma in the case of a fast deceleration or capsize. Making a parallel with other sports like horse riding, ski or cycling, we think that helmets will become used more and more in sailing activities, where the risks of falling or impacting against dagger boards or booms are present Forward Sailing proposes an innovative solution with this new sailing helmet with in mold technology (a thin skin of polycarbonate is co-injected with polystyrene foam) This technology enables to get a very light helmet (less than 300g !) but with superior shock absorption overpassing by far the water CE norm.*

## WIPPER JR SAILING HELMET

ONE SIZE: 52-56CM Code ACCAWIP100

WHITE

ORANGE

*Features*

- *High visibility durable ABS shell.*
- *High absorbtion EPS liner outperforming the water helmet norm.*
- *Dial fit system offering large sizing run from 52 to 56cm.*
- *Size 52-56cm child/youth size.*
- *1385 CE approved for water spobts*
- *Can pass the CE1078 Norm for bicycle & skate*

***A solid high visibility sailing helmet designed for the kid's everyday sailing and training.***

*Nowadays, kids are used to wear helmets to protect their head from Shocks and sun. This particulary make sense in sailing where sailing clubs are facing head injuries due to boom strikes... Kids, no doubt, will lead by example and love to wear the cool looking Wipper Jr helmet for their sailing days! And as kids are often coming to sailing club on bikes, our Wipper can also pass the cycling CE1078 norm.*

©Lloyd Images

## WIPPER HELMET

ONE SIZE: 55-60CM / Code ACCAWIP222

White / Red Matt

Black Matt / Glossy

Neon Yellow Glossy

*Features*

- Solid robust construction with waterproof lining
- Easy Velcro multi snug fit size adjustment
- Soft flex multi-impact dampening lining
- Optional clip on cloth visor and Optional Ears protection
- Uni Size 55-59cm adult size
- Snug fit multi position fit system
- Multi impact High shock absobtion foam
- 1385 CE approved for water sports

*A very stylish multi watersport helmet to use all day, everyday!*

*Designed to take the knocks and bangs of everyday sailing, Kite surfing or Windsurfing. The Wipper helmet is particularly suited to action watersport, where sudden smacks are all too frequent! Very durable with its ABS shell, it has a multi positionable fit system combined with micro Velcro size adjustment system to fit any head size with snug fit.*

*Available in a variety of fashionable colours and finish with or without non removable ear protection and with an optional textile cap visor, the WIPPER helmet is a valuable piece of vital protection. The brighter colours allow for better visibility too.*

# 50N IMPACT VEST

Code GI1000001

Front

Back

### Features

Orange shoulder strap for higher visibility with a strategic pocket

Neoprene sleeve for a Spare Air tank

Strategic pocket for a spare knife

• Spare Knife
Code WIPACSK111

A cutter for webbing and ropes
A safe webbing cutter with a webbing strap and velcro patch, allowing it to be stowed for instant access. Perfect match location with Forward WIP Impact vest.
Stainless / alloy metal construction

Pocket for the optional Security Knife
Code WIPACSK111

Comms-Unit pocket

Back cushioning

### Options

• Spare Oxygen Sleeve
Code WIPACSATS1

Sleeve for Spare Air or VHF systems
A neoprene sleeve to accommodate the 'Spare Air 170' emergency breathing canister allowing easy fitting to the front of the 50N Impact Vest. The sleeve is also perfect to locate any VHF mobile receptors. Perfectly located on the 50N WIP vest, the user will have handfree access to the 170 spare air for emergency breathing.

### Features

• 50N buoyancy but with a denser foam protection for genuine impact protection.
• Side zip and twin webbing strap fastening, allowing very close fitting to the body and the neoprene non-slip strips inside to prevent any 'ride up'.
• 7 different sized equipment pockets including one under the hi-visibility shoulder panels, a larger front zipped and a rear velcro fastened pockets for knives, comms etc.
• Compact design allows unrestricted and maximum movement of both arms and waist
• Complies CE 12402-5
• 5 sizes available: S - M - L - XL - XXL

**The World's top sailing team's preferred choice of Impact protection & buoyancy.**

The Water Impact Protection (WIP) vest by FORWARD offers great comfort and protection for serious sailors (including Kite Surfers&SUP paddlers).
This WIP vest has a close-fitting, low bulk design that offers great mobility and a large range of movement Everyday benefits include ability to swim faster and re-board capsized boat easier. The WIP vest is designed to be compatible with FORWARD WIP Tops&Pants and Sailing harness as well as most other sailing harnesses. Chosen by the many America's Cup Teams and top sailors who choose this as their perfect solution, it is arguably the most comfortable buoyancy aid/impact vest you will ever wear!
Please note this is a buoyancy aid, NOT a lifejacket.

©Ian Philpott

"This is best low profile high absorption buoyancy aid I ever tested! I love the front zip pocket."
Glenn Ashby

Used and approved by the AC72 America's Cup winner

# TRAPEZE EXO HARNESS

Code HATREXO113

©Emmanuelle Beauchard

Features

- Lightweight and very comfortable enveloping internal layer with 2 strap leg system
- External EXO support belt for maxi support
- Adjustable shoulder strap system accessible while sailing
- 2 available sizes: S/M & L/XL

*A super comfortable harness with an external reinforced lumbar support.*

*This new EXO harness is developped for those who are fans of twin strap leg system and wanting to get a light and very supportive harness with external EXO reinforced belt.*

*Evolution of Steve Murray's original design, this sailing harness design has been proven for more than 20 years.*

# HARNESS PRO

Code HATRI00000

Features

- Physiotherapist designed adjustable internal lumbar support pad with a larger pad available.
- Quick adjustable Velcro waist straps and webbing shoulder straps with quick release catch.
- Comfortable neoprene padded crotch support and wear resistant seat areas.
- Wide trapeze hook bar to prevent pelvic crushing.
- Sizes S/M & L/XL

*"Most confortable sailing harness ever made !"*

*Yvan Bourgnon during the Cape Horn rounding*

*Spare Lumbar Maxi Belt also available*

Code HASUDO1000

*Larger size back support for long distance sailing days. Wide and confi back support with integrated battens for long sailing days. Compatible with both Forward sailing harnesses.*

**A comfortable harness with an integrated adjustable lumbar support.**

*This PRO Trapeze harness features a custom designed adjustable or removable lumbar support pad for extra back protection. It also has easily adjustable shoulder and velcro waist straps plus a comfortable neoprene crotch support panel. It features a wide metal spreader bar for the hook to prevent crushing of the pelvis. It also has rear back padding and an abrasion resistant seat area.*

# HARNESS LIGHT / CLUB

Code HATRS10002

Features

- Easy to put on and to adjust making this harness ideal for training and sailing school use.
- Anti abrasion seat area with comfortable neoprene padded crotch support.
- Can be worn with the optional lumbar support.

*Lumbar belt not included in Light version*

**A simpler and lighter harness with optional support pads.**

*Designed for comfort and freedom, the design of the harness offers great back bracing, total freedom of movements for arms and legs thanks to well designed openings. Particular care was brought to the pelvic area with neoprene coating. The wide stainless steel buckle avoids compression of the pelvis. The lateral lines enable a micrometric adjustment to adapt the harness to the body shape of the sailor.*

# WATER IMPACT PROTECTION

*FORWARD FLY WIP PROTECTION*

© Eloi Stichelbaut

*The first stylish and low profile sailing body armor for fast sailors...*

## BREATHABLE 1MM TITANIUM TOP

Code WIPVETTT10

*Features*

- Titanium lined.
- 1mm neoprene.
- Very 4D stretchy and comfortable.
- Suitable for 20°-25° conditions or below as first layer.
- 5 Sizes XS, S, M, L & XL.

***Titanium lined Neo Top.***

*Super stretchable comfortable Zip free top with Titanium™ inside finish acting as light weight body heat reflector.*
*1mm neoprene construction allows this comfortable top to be worn over a rash vest for summer warmth or as a first layer during cold season.*

## 2MM NEO 3/4 SHORT

Code VETPANEO10

*Features*

- 1.5 mm neoprene.
- Hiking compatible pockets.
- Flexible design.
- 3 Sizes - M, L & XL.

*"Super confortable and with good protection on knees, but don't forget sunscreen for the bottom of your legs!"*

*Glenn Ashby*

*Reinforced neoprene short pant which stops just below knees. The wide top elastic waist strap enables you to move easily compared to models with braces. Made in neoprene 1.5mm, it includes a fitting strap to keep the pant in place, and some reinforcements on knees and backside. Perfect also for stand up paddle and kite surfing. The areas inside the legs and behind the reinforced knees are in 0.5 neoprene to move freely and avoid folds. New for 2016, back pockets makes the neoprene short compatible with Forward Power Hiking pads.*

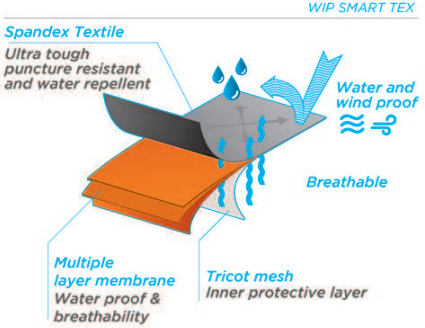
*Optional custom hiking pad*
*CODE - WIPHIPAJR1*

## FLEX SMOCK SPRAY TOP

Code WIPVETSMO5

*Features*

- Zone Flex Neoprene back panel for comfort and movement freedom.
- Waterproof breathable fabric.
- Cool design.
- Zipped front pocket.
- 5 Sizes XS, S, M, L & XL



***Innovative and stylish dinghy smock.***

*This stylishly designed dinghy smock features a unique neoprene back panel to give extra flexibility and comfort.*
*Made from a 3 layers high breathable yet waterproof material, this smock has a fold over neck fastening with a zipped front and waterproof wrist fastenings.*
*Ideal to be worn over the WIP Long john.*

## 3MM NEO LONG JOHN

Code WIPVETNLJ3

*Features*

- 3mm neoprene
- Thermoplastic shin protection panels
- Elbow and rib protection with integrated neoprene foam
- Flexible design
- 5 sizes - XS, S, M, L & XL

***3mm Long john with WIP protection.***

*Developed for the dinghy market, this 3mm long john is design with many different panels all targeting specific needs.*
*Top part is made with punched Neoprene allowing breathability, legs have integrated thermoplastic protective shin panels, high abrasion rubber coating on sensitive zones with over 10mm neoprene on flex zone for shock dampening.*
*Special opening allowing easy access to urinate.*
*Can be worn in conjunction with the WIP Neo Top, the Flex WIP smock or over the Titanium top in summer.*

# FLY WIP PRO-TEC

*Pant Code WIPVETPA10  Top Code WIPVETTO10*

*WIP Neo Top Features*

- Forearm protection with integrated thermoplastic pads.
- Elbow and rib protection with integrated neoprene foam.
- 3mm neoprene with front zip for ease of wear and warmth control.
- Available in 4 sizes - S, M, L & XL

*WIP Neo Pant Features*

- 3mm neoprene
- Thermoplastic integral protection panels
- Flexible design
- Available in 5 sizes - XS, S, M, L & XL

*"The perfect combination for spring and fall conditions. Very stretchable and I feel safer with protection"*

Jean Christophe Mourniac

**Neoprene top with WIP protection.**

A 3mm neoprene zip top with 10mm neoprene protection on the sides for shock protection. Features thermoplastic panels on the elbow and forearm areas for impact protection. It has a long body for a good overlap with the Neo Pants. Can be worn as a top over a long john.

**Neoprene Pant with WIP Protection.**

Really high abrasion rubber coating on sensitive zones with over 10mm neoprene on flex zone for shock dampening. Features a unique construction with integrated thermoplastic sheets for shock spreading on the shin/side. Tactical selection of high stretch 2mm and 3mm neoprene zones. Optional Shoulder straps for the Pant in case of absence of a sailing harness. Nice overlap Pant/vest for insulation. Front opening Pant for ease and comfort. Back leg high abrasion fabric on Pant. Suitable for 15°-20° conditions

©Denis Lucci

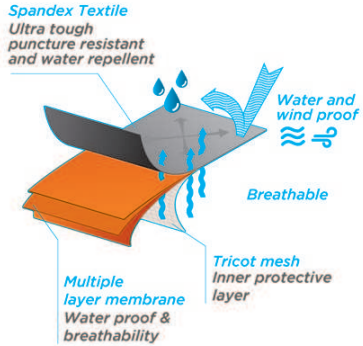
## HYBRID SEMI DRY

Code WIPVETHY10

*Features*

- 3 breatheable layers on upper body.
- 4mm superstretch Neoprene pants.
- 1mm waterproof neck and wrist seal.
- Super flexible ZIP opening on the back shoulders.
- 5 Sizes XS, S, M, L & XL

*WIP SMART TEX*



**WIP Semidry 4mm suit.**

Best of both worlds: soft, breathable and confortable top feel to use with first layer fleece, and tight bottom pant with protection. Waterproof Shoulder Zip and tactical waist comfort zip. Real high abrasion rubber coating on specific zones.
Over 10mm neoprene on flex zone for shock dampening. Unique construction with integrated thermoplastic sheets for shock spreading on shin and thigh. Top is breathable, wind & waterproof, connected to a bottom with 4mm super stretch Neo pant.
Neoprene waterproof wrist and collar, waterproof zip and fly. Made without integrated socks as they are too fragile.

## MERINO TOP

Code WIPVETTOME

*Features*

- Composition - 80% Merino, 20% Polyester
- Naturally antibacterial - Natural Merino wool helps keep your garment stay fresh and odour free.
- Wicking - Actively wicks moisture away from the skin, keeping you dry and comfortable.
- Breathable - Highly breathable fabric lets moisture out, making sure you stay dry on the inside.
- Lightweight - Great for travelling, walking and more, with no added bulk.
- Easy care - This garment is machine washable
- 5 Sizes XS, S, M, L & XL

**Merino base layer.**

Superfine Merino top base layer takes advantage of the incredible properties of nature's finest technical fabric and combines them with the quick-drying, hardwearing performance of polyester to create the ultimate "best-of-both-worlds" base-layer.
Merino wool has an uncanny ability to regulate your temperature in a wide range of conditions. It's nice and cosy in the cold but never too hot when the temperature or your activity levels start to rise. It 'wicks' moisture extremely efficiently and, because wool is the only fibre in the world which can absorb vapour, it delays the onset of sweating – keeping you far more comfortable and eliminating that unpleasant chilling feeling you sometimes get when you take a break or slow down.

## THERMO NEO SOCKS

Code WIPBOH1000

**2mm Neoprene Socks**

Perfect for cold weather sailing.
The ideal complement to the Hybrid suit turning it into a full dry suit.
The slick neoprene on the upper part of the sock ensures a waterproof junction with the Hybrid suit.

## WIP DRY SAILING SHORT

Code WIPVETARA1
