ATTW-1733-1	<b>Ventilator Attwood Blower-3" 12V</b>	KOM	<b>178,00</b>
	<p>The first vane axial-flow fan bilge blowers designed using aerospace technology to maximize performance. No other bilge blowers in the industry provide such powerful system output at such a low power input in a compact size.</p> <p>Patented in-line design – provides ventilation for engine compartments, galleys, bilges, and heads. Mounting feet allow vertical or horizontal installation in confined spaces. Install with #10 fasteners. Individual carton includes 2 tie straps. All are CE certified. 16-gauge tinned and caulked copper wire leads with optional MP1 molded rubber connectors. Improved 3" design includes:</p> <p>Nickel-plated motor can for corrosion resistance; Stiffening ribs to reduce housing distortion; Motor cap to seal wires and motor for water resistance; Five-blade fan maximize airflow and efficiency; Tabs in intake and exhaust hold ventilation hose/ clamp firmly in place; Low amp draw motor for longer blower and battery life; Built-in mounting feet allow easy vertical or horizontal install</p>

ATTW-4201-1	<b>Plovak pumpe Attwood 12-24V (12 - 6A)</b>	KOM	<b>191,00</b>
	<p>Converts bilge pumps to fully automatic operation. Maximum amp draw is 12 amps (at 12-volt D.C.) or 6-amps (at 24-Volts D.C.). Features a compact, low profile design that mounts on any surface from a horizontal up to a 24° angle. Incorporates a reliable and affordable mechanical switch that actuates pump motor at 2" water level. Wire leads do not flex or hinge with the float as on some competitive models. Integral cover dampens bilge sloshing to reduce pump cycling, and prevents debris interference. Sealed switch mechanism resists moisture, fume-ignition, and electrical shock. Contains no mercury, which is listed as a health hazard and "Persistent Toxic Substance" in over 26 states.</p>

ATTW-4801-1	<b>Elektronski prekidač Attwood Bilge 12V</b>	KOM	<b>246,00</b>
	Incorporates a proprietary Electronic Sensing technology to detect bilge water levels and trigger pump activation and has been engineered to operate in any bilge water mixture consistently without failure. Your pump won't be exposed to continuous cycling as the S3 switch can easily distinguish splashing bilge water, chemicals, sludge build up or foam and comes equipped with fully sealed electronics that are completely protected from water or chemical damage. For added convenience, the bilge switch can be mounted on the floor of the bilge directly to a stringer wall or alongside the basket of the pump without added components or brackets. The S3 Series switch is also directly compatible with all competitive products and free of moving parts that can jam up, break or wear out over time.
